Studying in class 12 in Ecole Mondiale can cost you a whooping
of Rs 10,90,000.

PRIVATE V/S GOVERNMENT SCHOOLS

- ➡ A Government school is government funded and all students attend free of cost.
- ➡ A private school is autonomous and generates its own finding through various sources like student tuitions, endowment...

Government school

More salary.

Rate of teacher activity is low .

There are no higher officials to question them.

Private School

Less salary .

Rate of teacher activity is high .

They are higher officials to question them.

GOVERNMENT SCHOOL INFRASTRUCTURE

GOVERNMENT SCHOOL INFRASTRUCTURE

They have own buildings.

They have 9% of library.

Vast playground.

Less infrastructure for cultural activity.

Less electrical facilities.

Less computers available.

Total number of classrooms low.

PRIVATE SCHOOL INFRASTRUCTURE

PRIVATE SCHOOL INFRASTRUCTURE

All have own buildings except few.

They have $\frac{1}{4}$ of library.

Very confined playgrounds.

More infrastructure for cultural activity.

More electrical facilities.

More computers available.

Total number of classes are more.

WHY PARENTS ARE APPROACHING PRIVATE SCHOOLS?

The private management will concentrate on the student's results regularly. Teachers are answerable for poor results. If teachers don't achieve their target they may be decremented. Parents come to know the level of their children. they conduct parent teacher meeting. Parents can question the management as they are paying the money.

No much care about results in government schools. If teachers don't achieve their target also they get their salary. the above mentioned things are not done in government schools.....

TEACHERS INVOLVEMENT AND QUALIFICATIONS

- ✦ In private schools the teachers are may or may not be certified but often hold a graduate degree or higher education. In government schools teachers must meet all state-mandated requirements and be highly proficient in their subject area.
- ✦ Teachers are always been working in private schools. Teachers are often found chatting in the staff rooms.
- ✦ In private schools teachers use student for their personal activities and those students are treated in good manner....

WHAT I WILL DO IN FUTURE ABOUT THE PROGRESS OF GOVERNMENT SCHOOLS?

As my aim is to become a *civil servant*, As the main defect in government schools is infrastructure. I will be more concentrating on Infrastructure facilities in school. I will be providing soft skills classes for children so that they can get rid off with stage fear as well as communication skills from lower classes itself. I will make sure that every parent should approach respective class teachers for their child's progress. I will provide great opportunities for sports and cultural activities. I will be providing digital classrooms which are mandatory.

As i am from government school my teachers used to provide prize money for the students who scored top 3 in the halfyearly and end examinations which makes the student get inspired and makes a great effort in studying and they feel competitive which helps more focus on the syllabus,I will be implementing this in future.I will be providing more oppurtunities in sports and cultural sector.....

THANK

YOU

A.SUSHMITHA
